ACTA TROPICA

Volume 65

Author index

Abbas, N., see Bwijo, B., (65) 11
Ablordey Abbey, M., see Akua Agyepong, I., (65) 123
Agyeman, J.A., see Annan-Prah, A., (65) 33
Akua Agyepong, I., Koryo Wellington, E. and Ablordey Abbey, M.
A comparative study of clinical and sociocultural aspects of anaemia among adolescent girls in rural Ghana, (65) 123
Annan-Prah, A. and Agyeman, J.A.
Nutrient content and survival of selected pathogenic bacteria in kenkey used as a weaning food in Ghana, (65) 33
Appleford, P.J. and Smith, J.E.
Toxoplasma gondii: the growth characteristics of three virulent strains, (65) 97
Appleton, C.C., see Brackenbury, T.D., (65) 155

Baird, J.K., see Reeder, J.C., (65) 163
Barr, P., see Bilsborough, J., (65) 59
Bathurst, I., see Bilsborough, J., (65) 59
Baumgart, K., see Bilsborough, J., (65) 59
Baylis, M.
The daily feeding rate of tsetse (Diptera: Glossinidae) on cattle at Galana Ranch, Kenya and comparison with trypanosomiasis incidence, (65) 81
Becker, M.M., see Kalinna, B.H., (65) 111
Bilsborough, J., Baumgart, K., Bathurst, I., Barr, P. and Good, M.F.
Fine epitope specificity of antibodies to region II of the *Plasmodium vivax* circumsporozoite protein correlates with ability to bind recombinant protein and sporozoites, (65) 59
Björkman, A., see Bwijo, B., (65) 11
Brackenbury, T.D., Appleton, C.C. and Thurman, G.
Mammal toxicity assessment of the plant molluscicide, *Apodytes dimidiata* (Icacinaceae), in South Africa, (65) 155
Brandt, J.R.A., see Geerts, S., (65) 23
Brown, G.V., see Reeder, J.C., (65) 163
Bwijo, B., Hassan Alin, M., Abbas, N., Eriksson, Ö. and Björkman, A.
Repetitive dosing of artemisinin and quinine against *Plasmodium falciparum* in vitro: a simulation of the in vivo pharmacokinetics, (65) 11

Cuisance, D., see Solano, P., (65) 175
Cuny, G., see Solano, P., (65) 175

Dagnogo, M., Lohuirignon, K. and Traore, G.
Diversity of *Glossina* in the forest belt of Côte d'Ivoire, (65) 149
Davern, K.M., see Reeder, J.C., (65) 163
De Deken, R., see Geerts, S., (65) 23
Desquesnes, M.
Evaluation of a simple PCR technique for the diagnosis of *Trypanosoma vivax* infection in the serum of cattle in comparison to parasitological techniques and antigen–enzyme-linked immuno sorbent assay, (65) 139
Diarra, B., see Geerts, S., (65) 23
Dumas, V., see Solano, P., (65) 175
Duvallet, G., see Solano, P., (65) 175

Eisler, M.C., see Geerts, S., (65) 23
Eriksson, Ö., see Bwijo, B., (65) 11

Fukunaga, M., see Miyamoto, K., (65) 43

Geerts, S., Kageruka, P., De Deken, R., Brandt, J.R.A., Kazadi, J.M., Diarra, B., Eisler, M.C., Lemmouchi, Y., Schacht, E. and Holmes, P.H.
Prophylactic effects of isometamidium- and ethidium-sustained release devices against *Trypanosoma congolense* in cattle, (65) 23
Gomo, E., see Ndamba, J., (65) 181
Good, M.F., see Bilsborough, J., (65) 59

Hassan Alin, M., see Bwijo, B., (65) 11

Holmes, P.H., see Geerts, S., (65) 23

Kageruka, P., see Geerts, S., (65) 23
Kalinna, B.H., Becker, M.M. and McManus, D.P.
Engineering and expression of a full length cDNA encoding *Schistosoma japonicum* paramyosin: Purification of the recombinant protein and its recognition by infected patient sera, (65) 111
Kaondera, K.C., see Ndamba, J., (65) 181
Kazadi, J.M., see Geerts, S., (65) 23
Koryo Wellington, E., see Akua Agyepong, I., (65) 123

Lemmouchi, Y., see Geerts, S., (65) 23
Lohuirignon, K., see Dagnogo, M., (65) 149

Makaza, N., see Ndamba, J., (65) 181
Marsh, K., see Snow, R.W., (65) 1
McManus, D.P., see Kalinna, B.H., (65) 111
Miyamoto, K., Sato, Y., Okada, K., Fukunaga, M. and Sato, F.
Competence of a migratory bird, red-bellied thrush (*Turdus chrysolaus*), as an avian reservoir for the Lyme disease spirochetes in Japan, (65) 43
Molyneux, C.S., see Snow, R.W., (65) 1
Muniu, E., see Snow, R.W., (65) 1

Ndamba, J., Gomo, E., Nyazema, N., Makaza, N. and Kaondera, K.C.
Schistosomiasis infection in relation to the ABO blood groups among school children in Zimbabwe, (65) 181
Nesterenko, M.V., Woods, K.M. and Upton, S.J.
Effective non-radioactive method of surface labeling *Cryptosporidium parvum* sporozoites, (65) 53
Nevill, C.G., see Snow, R.W., (65) 1
Njeru, E.K., see Snow, R.W., (65) 1
Nyazema, N., see Ndamba, J., (65) 181

Okada, K., see Miyamoto, K., (65) 43
Omumbo, J., see Snow, R.W., (65) 1

Reeder, J.C., Davern, K.M., Baird, J.K., Rogerson, S.J. and Brown, G.V.
The age-specific prevalence of *Plasmodium falciparum* in migrants to Irian Jaya is not attributable to agglutinating antibody repertoire, (65) 163
Rogerson, S.J., see Reeder, J.C., (65) 163

Sato, F., see Miyamoto, K., (65) 43
Sato, Y., see Miyamoto, K., (65) 43
Schacht, E., see Geerts, S., (65) 23
Smith, J.E., see Appleford, P.J., (65) 97
Snow, R.W., Molyneux, C.S., Njeru, E.K., Omumbo, J., Nevill, C.G., Muniu, E. and Marsh, K.
The effects of malaria control on nutritional status in infancy, (65) 1
Solano, P., Duvallet, G., Dumas, V., Cuisance, D. and Cuny, G.
Microsatellite markers for genetic population studies in *Glossina palpalis* (*Diptera*: *Glossinidae*), (65) 175
Staak, C., see Van den Bossche, P., (65) 105

Thurman, G., see Brackenbury, T.D., (65) 155
Traore, G., see Dagnogo, M., (65) 149

Upton, S.J., see Nesterenko, M.V., (65) 53

Van den Bossche, P. and Staak, C.
The importance of cattle as a food source for *Glossina morsitans morsitans* in Katete district, Eastern Province, Zambia, (65) 105

Woods, K.M., see Nesterenko, M.V., (65) 53

ACTA TROPICA

Volume 65

Subject index

Adolescent girls, (65) 123
Ag-ELISA, (65) 139
Anaemia, (65) 123
Apodytes dimidiata, (65) 155
Artemisinin, (65) 11
Asian schistosomiasis, (65) 111

Biotin, (65) 53
Blood group, (65) 181
Borrelia garinii, (65) 43
Buffy coat method, (65) 139

Cattle, (65) 23
Childhood, (65) 1
Community perceptions, (65) 123
Côte d'Ivoire, (65) 149
Cryptosporidium parvum, (65) 53

Diversity, (65) 149

Escherichia coli, (65) 33
Ethidium, (65) 23
Expression, (65) 111

Feeding habits, (65) 105
Feeding success, (65) 81
Forest, (65) 149
French Guiana, (65) 139

Gene cloning, (65) 111
G. fuscipes, (65) 175
Glossina, (65) 149
Glossina longipennis, (65) 81
Glossina morsitans morsitans, (65) 105
Glossina pallidipes, (65) 81
Glossina palpalis, (65) 175
G. morsitans, (65) 175

Haematocrit centrifuge method, (65) 139
Host, (65) 105

Incidence, (65) 181
Insecticide-treated bed nets, (65) 1
Intensity, (65) 181
In vitro, (65) 11
In vitro growth, (65) 97
Irian Jaya, (65) 163
Isometamidium, (65) 23
Ixodes persulcatus, (65) 43

Kenkey, (65) 33
Klebsiella pneumoniae, (65) 33

Malaria, (65) 1, 11, 123, 163
Mammal toxicity, (65) 155
Microsatellite, (65) 175
Migratory bird, (65) 43
Morbidity, (65) 181

Nutrition, (65) 1
Nutritional value, (65) 33

Paramyosin, (65) 111
Pharmacokinetics, (65) 11
Philippine *Schistosoma japonicum*, (65) 111
Plant molluscicide, (65) 155
Plasmodium falciparum, (65) 11
Plasmodium falciparum acquired immunity, (65) 163
Polymerase chain reaction, (65) 139
Population genetics, (65) 175
Prevalence, (65) 181
Prophylaxis, (65) 23
Protein labeling, (65) 53

Quinine, (65) 11

Region II, (65) 59
Reservoir, (65) 43

Schistosoma haematobium, (65) 181
S. mansoni, (65) 181

Sporozoite, (65) 59
Sporozoite proteins, (65) 53
Staphylococcus aureus, (65) 33
Sustained release device, (65) 23

Tachyzoites, (65) 97
Toxoplasma gondii, (65) 97
Transmission efficiency, (65) 81
Trypanosoma, (65) 81
Trypanosoma congolense, (65) 23
Trypanosoma vivax, (65) 139
Trypanosomiasis, (65) 81
Trypanosomosis, (65) 175
Tsetse, (65) 81
Turdus chrysolaus, (65) 43

Ultrasonography, (65) 181

Vaccine, (65) 59, 111
Virulence, (65) 97
Vivax malaria, (65) 59

Zambia, (65) 105
